

Ubaid Ahmed Awan

Senior Full-Stack Engineer · Next.js · React · TypeScript · Node.js · Laravel · AWS

Islamabad, Pakistan (PKT, UTC+5) | awanubaidahmed@hotmail.com | linkedin.com/in/ubaidahmedawan | github.com/UbaidAhmedAwan | ubaidahmedawan.github.io

Summary

Senior full-stack engineer (7+ years). Solo engineer at Signal building and maintaining the Learnsignal platform: marketing site (learnsignal.com), custom Next.js LMS that replaced Docebo and LearnWorlds in 2026, Stripe billing and subscriptions, study planner, and course delivery for ACCA, CIMA, and AAT learners. Designed and shipped the Laravel-to-Next.js rebuild and Vercel cutover; full responsibility across production, CI/CD, backend performance, and architecture.

Technical Skills

Languages: TypeScript, JavaScript, PHP, HTML, CSS, Bash, SQL

Frontend: React, Next.js (App Router), Server Components, Tailwind CSS, REST consumption

Backend: Node.js, Laravel, PHP, REST API design, MySQL, PostgreSQL, third-party integrations, OAuth, webhooks

Cloud / DevOps: AWS (EC2, S3, RDS, Lambda), Vercel, Docker, GitHub Actions CI/CD, Bash deployment, Linux administration. Prior: GCP, Azure.

AI-assisted dev: Claude Code, Cursor, GitHub Copilot, used in daily delivery for code generation, review, and refactoring

Platforms (prior): WordPress (custom themes, plugins, multisite), Shopify

Practice: System design, code review, architectural decision records, mentoring, Agile delivery, technical documentation

Professional Experience

Senior Software Engineer

Jun 2024 – Present

Signal (Learnsignal) · EdTech | Dublin, Ireland · Remote

- Solo engineer building and maintaining the Learnsignal platform: marketing site (learnsignal.com), custom Next.js LMS, Stripe billing and subscriptions, study planner, and course delivery for **100,000+ ACCA / CIMA / AAT learners across 130 countries** (ACCA Gold Approved partner).
- Replaced two SaaS LMS platforms (Docebo and LearnWorlds) with a custom Next.js LMS designed and built in-house; ongoing feature work beyond what either off-the-shelf product supported.
- Designed and shipped the platform's Laravel-to-Next.js rebuild and Vercel cutover in early 2026; live deployment scores **93 (mobile) / 95 (desktop)** on Google PageSpeed Insights, with continued feature delivery on top.
- Operated AWS production (EC2, S3, RDS) on the prior Laravel stack via Console and Bash automation; maintain GitHub Actions CI/CD across staging and production.
- Sole owner of architecture, code quality, backend performance, and incident response on the platform; daily development uses Claude Code and Cursor.

Software Development Team Lead

Sep 2020 – Jul 2024

DexterCode · Software Agency | Islamabad, Pakistan

- Technical lead on concurrent client builds across Laravel, Shopify, and WordPress; ran scoping, estimation, and delivery.
- Established peer code review standards and Laravel/PHP conventions adopted team-wide.
- Mentored engineers via 1:1s and review feedback; contributed to hiring and onboarding.
- Authored system documentation (user guides, API specifications, architecture diagrams) and provided third-tier escalation support on production incidents.
- Introduced Agile delivery practices and structured estimation; sprint predictability and backlog health improved across the team.

Independent Client Retainers (concurrent, part-time)

Jan 2020 – May 2026

The Ingenio Marketing LLC (NJ, USA) · *Dr. William Rahal (CA, USA)* | Remote

- Long-running freelance retainers (combined ~6–8 hrs/week) for WordPress, PHP, Laravel, and AWS maintenance on US-based client web properties; wound down in 2026 to focus on full-time work.

- Maintained and extended custom WordPress themes/plugins and Laravel/PHP modules; built PHP backend functionality and third-party API integrations.
- Managed AWS infrastructure (EC2, S3, RDS) for hosted client sites; tuned for cost and reliability.
- Implemented caching and load-time optimizations and CI/CD automation to maintain performance under traffic growth.

Junior Web Developer

Jun 2019 – Aug 2020

Corporate Research and Investigations Limited | Islamabad, Pakistan

- Designed and developed PHP-based websites and internal portals (HRMIS, Audit Portal, event scheduler, learning management system, test management system) serving **2,000+ internal users**.
- Collaborated with designers to deliver clean, intuitive UIs; owned QA testing protocols to find bugs and improve usability before production.

WordPress Developer

Sep 2018 – May 2019

2 Web Design | Saskatchewan, Canada · Remote

- Designed and developed **30+ WordPress websites** for clients across diverse industries; built registration/membership systems, event schedulers, and a learning management system.
- Provided client support and resolved technical bugs on live websites; collaborated with graphic designers on intuitive interfaces.

Notable Projects

Learnsignal (learnsignal.com). Solo engineer behind the platform at Signal: marketing site, custom Next.js LMS (replaced Docebo and LearnWorlds), Stripe billing, study planner, course delivery. Designed and shipped the Laravel-to-Next.js rebuild and Vercel cutover in early 2026; live deployment scores **93 / 95 (mobile / desktop) on Google PageSpeed Insights**. Serves **100,000+ ACCA / CIMA / AAT learners across 130 countries** (ACCA Gold Approved). Stack: Next.js, React, TypeScript, Node.js, Laravel, Vercel, AWS.

KDA Inc. (kdainc.com). Sole developer for Karla Dennis & Associates, an Orange County tax-advisory firm. Custom WordPress theme and plugins, content architecture, lead-flow integrations. Stack: WordPress, PHP, MySQL.

Town of West New York, NJ (westnewyorknj.org). Sole developer for the official municipal site of a **50,000+ resident** Hudson County township across the river from Manhattan. Departmental pages, document libraries, public notices. Stack: WordPress, PHP, MySQL.

Education

MS, Project Management · Bahria University, Islamabad

2019 – 2020

BS, Computer Science · Bahria University, Islamabad

2014 – 2018

Certifications & Languages

Certifications: PHP: Object-Oriented Programming with Databases · Project Management Foundations

Languages: English (Professional Working) · Urdu (Native / Bilingual)
